- using MS Office to improve personal efficiency
- making the best use of web resources for education

DOUGLAS BUTLER

After graduating in Mathematics and Electrical Sciences at Cambridge University, and a spell with EMI Records, Douglas taught secondary Mathematics for over 30 years. He was Head of Mathematics at Oundle School and Chairman of the MEI Schools project, a leading UK curriculum development project.

A keen pianist and dinghy sailor, he is also author of *"Using the Internet - Mathematics"* (revised July 2003), the principal author of *Autograph* (version 3.2 May 2007), and a major contributor to the ICMI Study on *"Technology in Mathematics Education"* (Hanoi, Dec 2007). He maintains a large web site of educational resources in many subject areas on www.tsm-resources.com.

In 2000 he founded the innovative iCT Training Centre, based at Oundle School, which creates new resources for the use of computers in mathematics, and runs the TSM (Technology in Secondary/ College Mathematics) teacher training events all over the UK and overseas. He is a frequent speaker at international mathematics teachers' conferences, and has also run a ground-breaking series of conferences on Technology for Teaching Music.

"Douglas has an amazing wealth of knowledge of how to put ICT to work in the classroom, delivered with engaging humour" - Delegate, T-Cubed Conference, Denver 2006

SCALE OF FEES 2008-2009

• Inservice Training for Mathematics Teachers:

	UK	Europe	Overseas
On-site Courses: HALF DAY	£ 375	€ 650	\$ 900
